

Dear Friends Hillfe Adimaly,

Greetings from Morningstar family. Wish you a merry merry Christmas and phosphorous new year. May child Jesus bless you all abundantly. May your service flourish more and more. **“Kindness is a language that the deaf can hear and the blind can see”**.

Something about Morning Star Medical Centre: we are dreaming the oxygen generating plant for next January 2022 .This may be your gift for new year. We had a pregnant woman which is illegal pregnancy and hided for nine months. Husband is in Khathar. She came here in serious conditions, uterus was going to rupture. With out no check up ,no investigation we have done a cesarean section with high risk. Mother and baby alive, still good. I faced a crisis with life and death of a pregnant woman. Actually it is the benefit of this hospital, for the poor and needly.I shall write again.There are some more new issues like this . Let us pray for each other,we can go with hand in hand for the poor. Once again I wish you **A HAPPY CHRISTMAS** . Hope we will meet again in 2022.Hearty welcome Kerala. Let me conclude with prayer.

We visited central jail people and given to them small present along with a Christmas Skit.
